LITTLE WONDERS ESL · ANSWER KEY

Biology Word Lab: The human skeleton

Level A2 · about 25 minutes · bones, joints and muscles

1 BRAIN TEASERS: ANSWERS

1. **SKULL**. The skull protects the brain.
2. **SPINE**. The spine is your backbone.
3. **JOINT**. Knees and elbows are joints.

2 TEACHER NOTE

Students can touch their own skull, ribs and knee. Extension: babies have about 300 bones, and some join together as children grow.

3 WORD HUNT: SOLVED

12 columns, 8 rows

B	I	A	B	I	O	R	A	B	A	O	H
R	N	I	E	S	A	U	J	O	I	N	T
A	V	L	S	F	H	W	N	N	W	N	P
I	K	S	K	U	L	L	H	E	I	R	E
N	N	E	T	C	S	N	O	S	N	A	A
R	E	D	U	P	X	D	P	Y	E	A	B
L	E	R	R	I	B	S	S	P	I	N	E
A	E	N	I	R	I	I	F	E	M	U	R

- **SKULL: across, row 4, column 3**
- **SPINE: across, row 7, column 8**
- **JOINT: across, row 2, column 8**
- **BONES: down, row 1, column 9**
- **RIBS: across, row 7, column 4**
- **FEMUR: across, row 8, column 8**
- **KNEE: down, row 4, column 2**
- **BRAIN: down, row 1, column 1**

4 SPEAK: SAMPLE ANSWERS

Accept any correct answer in the child's own words
