LITTLE WONDERS ESL

Chemistry Word Lab: Metals

Level B1 · about 25 minutes · shiny, strong and useful

1 BRAIN TEASERS

Read the clue. Write the English word in the boxes.

1. I let heat or electricity pass through me easily. Metals are good examples of me.
2. I am a reddish metal. Many electric wires are made of me.
3. I am the only metal that is a liquid at room temperature. My symbol is Hg.

2 COOL FACT: WHAT MAKES A METAL?

Most of the elements are **metals**. Metals are usually hard, shiny and strong. Metals are good **conductors** of heat and electricity, so we use **copper** for electric wires. You can bend many metals without breaking them, and you can **hammer** them into thin sheets. Almost all metals are **solid** at room temperature. **Mercury** is the exception, because it is a liquid. Non-metals, such as sulfur, are often dull and break easily.

conductor = a material that lets heat or electricity pass

dull = not shiny

exception = something that is different from the others

sheets = flat, thin pieces of material

3 WORD HUNT

Across or down

Y	L	P	E	A	E	H	A	M	M	E	R
H	E	S	Q	N	N	W	L	M	E	D	R
S	C	O	N	D	U	C	T	O	R	P	S
O	R	W	I	R	E	T	E	S	C	E	H
L	T	R	I	N	L	A	E	R	U	X	I
I	J	X	E	R	V	I	H	A	R	L	N
D	L	M	E	T	A	L	A	H	Y	E	Y
X	A	C	S	O	I	C	O	P	P	E	R

WORD BANK

- ☐ **conductor**
- ☐ **copper**
- ☐ **mercury**
- ☐ **metal**
- ☐ **shiny**
- ☐ **wire**
- ☐ **hammer**
- ☐ **solid**

4 SPEAK

Tell your teacher in your own words (about 1 minute)

1. What are three properties of metals?
2. Why do we use copper for wires?
3. Which metal is a liquid at room temperature?
