LITTLE WONDERS ESL

Chemistry Word Lab: The periodic table

Level B1 · about 25 minutes · a map of the elements

1 BRAIN TEASERS

Read the clue. Write the English word in the boxes.

1. I am one or two letters. I am a short way to write the name of an element, for example O or Au.

2. I am the first element in the periodic table and the lightest of all. I am written as H.

3. I am a shiny yellow metal. I am written as Au. People make rings and coins from me.

2 COOL FACT: A CHART OF ALL THE ELEMENTS

The **periodic table** is a chart of all the elements. The Russian chemist Dmitri Mendeleev made the first famous version in 1869. In the table, the rows are called **periods** and the columns are called **groups**. Elements in the same group are similar. Each element has a **symbol** of one or two letters. For example, H is **hydrogen**, O is oxygen and Au is **gold**. The elements are in order by their atomic number.

chart = a table or picture that shows information

chemist = a scientist who studies chemicals

similar = almost the same

atomic number = the number of protons in an atom

3 WORD HUNT

Across or down

I	H	L	M	I	G	F	L	E	S	E	H
E	N	G	T	H	R	T	H	H	Y	A	E
T	R	O	I	D	O	T	R	A	M	E	L
O	O	L	L	E	U	N	U	M	B	E	R
I	Y	D	S	O	P	E	R	I	O	D	A
O	X	Y	G	E	N	T	A	B	L	E	K
O	R	H	Y	D	R	O	G	E	N	R	G
O	E	D	N	T	R	E	N	R	J	R	O

WORD BANK

- ☐ **symbol**
- ☐ **hydrogen**
- ☐ **gold**
- ☐ **table**
- ☐ **period**
- ☐ **group**
- ☐ **oxygen**
- ☐ **number**

4 SPEAK

Tell your teacher in your own words (about 1 minute)

1. What is the periodic table?

2. What is the symbol for oxygen?

3. Who made the first famous periodic table?
