LITTLE WONDERS ESL

Geography Word Lab: Volcanoes

Level B1 · about 25 minutes · fire from inside Earth

1 BRAIN TEASERS

Read the clue. Write the English word in the boxes.

1. I am hot, melted rock under the ground. ☐☐☐☐☐
2. I am hot, melted rock that has come out of a volcano and flows over the land. ☐☐☐☐☐
3. I am the bowl-shaped opening at the top of a volcano. ☐☐☐☐☐

2 COOL FACT: WHEN A VOLCANO ERUPTS

A **volcano** is an opening in the crust of Earth where hot, melted rock comes out. Under the ground, the melted rock is called **magma**. When it erupts and flows out of the volcano, it is called **lava**. An eruption can also send **ash**, gas and rocks high into the air. At the top of a volcano there is usually a bowl-shaped **crater**. Many volcanoes form where **tectonic plates** meet. Around the Pacific Ocean, many active volcanoes make the Ring of Fire.

crust = the hard outside layer of Earth
erupts = comes out with great force
active = able to erupt
opening = a hole

3 WORD HUNT

Across or down

T	P	K	O	S	V	N	B	E	Y	E	E
E	R	U	P	T	O	K	P	E	W	C	G

WORD BANK

- ☐ **magma**
- ☐ **lava**
- ☐ **crater**
- ☐ **volcano**
- ☐ **erupt**
- ☐ **ash**
- ☐ **crust**
- ☐ **plates**

4 SPEAK

Tell your teacher in your own words (about 1 minute)

1. What is the difference between magma and lava?
2. What can an eruption send into the air?
3. Where do many volcanoes form?
