LITTLE WONDERS ESL

History Word Lab: The first steps on the Moon

Level A2 · about 25 minutes · the Apollo 11 mission, 1969

1 BRAIN TEASERS

Read the clue. Write the English word in the boxes.

1. I am a person who travels into space. Neil Armstrong was one of me.
2. I am a very tall vehicle that carries a spacecraft into space.
3. I was the first person to travel into space, in 1961. My name is Yuri.

2 COOL FACT: ONE SMALL STEP

In the 1960s, the United States and the Soviet Union competed in the **space race**. In 1961, Yuri **Gagarin** became the first person in space. A huge Saturn V **rocket** launched **Apollo 11** on 16 July 1969. Four days later, on 20 July, the spacecraft landed on the **Moon**. The **astronaut** Neil Armstrong was the first person to walk on the Moon, and Buzz Aldrin followed him. Michael Collins stayed in the spacecraft and orbited the Moon. The astronauts collected rocks, and then they returned safely to Earth.

competed = tried to be better than others

launched = sent into the air or into space

spacecraft = a vehicle that travels in space

safely = without any harm
