LITTLE WONDERS ESL

Science Word Lab: How scientists work

Level B1 · about 25 minutes · questions, experiments and results

1 BRAIN TEASERS

Read the clue. Write the English word in the boxes.

1. I am a test that scientists do to find out if an idea is correct.
2. I am a careful guess about what will happen. Scientists make me before they test.
3. I am the last step. I say what the results show.

2 COOL FACT: THE STEPS OF AN INVESTIGATION

Scientists use a method to find answers. First, they ask a **question**. Next, they make a **prediction**, which is a careful guess about what will happen. Then they do an **experiment** to test it. In a **fair test**, you change only one thing and keep everything else the same. They record the **results** in a table or a graph. Finally, they write a **conclusion**. If the results are different from the prediction, that is still useful, because scientists learn something new.

method = a way of doing something
graph = a picture that shows numbers
record = to write down
useful = helpful

3 WORD HUNT

Across or down

R	T	T	H	N	T	I	G	R	A	P	H
E	E	X	P	E	R	I	M	E	N	T	M
S	S	H	R	Q	U	E	S	T	I	O	N
U	T	A	W	C	C	Y	N	E	N	R	T
L	C	O	N	C	L	U	S	I	O	N	A
T	S	S	K	B	E	I	C	N	I	A	B
S	P	R	E	D	I	C	T	I	O	N	L
C	S	M	P	F	I	S	E	I	B	S	E

WORD BANK

- ☐ **experiment**
- ☐ **prediction**
- ☐ **conclusion**
- ☐ **question**
- ☐ **results**
- ☐ **graph**
- ☐ **table**
- ☐ **test**

4 SPEAK

Tell your teacher in your own words (about 1 minute)

1. What is the first step of the scientific method?
2. What is a fair test?
3. What do scientists do at the end?
